

Curriculum Vita

JIANQIANG ZHAO

Natural Science Collegium
Eckerd College
St. Petersburg, FL 33711

Office Phone: (727) 864-8348
Office Fax: (727) 864-8382
E-mail: zhaoj@eckerd.edu

Employment

- Associate Professor, Eckerd College, 09/2008–present.
- Assistant Professor, Eckerd College, 09/2003–08/2008.
- Lecturer, University of Pennsylvania, 07/1999–06/2003.

Visiting Research Positions

- Taida Institute Math. Sci., National Taiwan University, May-June 2012.
- Institut des Hautes Études Scientifiques, France, Jun.-Aug. 2011.
- Max-Planck Institute for Mathematics, Bonn, Germany, Jan.-Aug. 2009.
- The Institute for Advanced Study, Princeton, NJ, Aug. 2008.
- The Morningside Center of Mathematics, Beijing, China, July-Aug. 2007.
- The Chern Institute of Mathematics, Tianjin, China, June-July 2007.

Educational Background

- Ph.D., Brown University, 1999
- M. Sc., Brown University, 1997
- M. Sc., Nankai University, 1993
- B. Sc., Nankai University, 1990

Professional Interests

- Algebraic number theory (11G, 11R)
- Algebraic geometry (14F)
- Algebraic K -theory (19E, 19F)

Awards and Honors

- Faculty Development Fund, Eckerd College, various amounts, 2005-2011.
- NSF grant DMS0348258, 2003-2005
- NSF grant DMS0139813, 2002-2003
- Good Teaching Award, Dept. of Math., University of Pennsylvania, Fall 2003
- Special NSF grant for attendance of ICM in Beijing, 2002
- George Irving Hopkins Fellowship, Brown University, 1998-99
- Teaching Fellowship, Brown University, 1997-98
- University Fellowship, Brown University, 1994-95
- University Fellowship, Nankai University, 1986-93
- Nankai School Alumni Foundation Fellowship, Nankai School Alumni Foundation, 1986-90

Professional Service

- Reviewer for *Mathematical Reviews*, 1997 – present
- Referee for *J. of Number Theory*, *Intl. J. of Number Theory*, *J. of Intl. Math. and Math. Science*, *Annales Sci. de l'Ecole Normale Supérieure*, *Discrete Math.*, *Aequationes Math.*, *Acta Math. Sinica*, *Compositio Math.*, *Glasgow J. Math.*, *European J. Math.*, *American Math. Society*, *London Math. Society*, *Chinese Math. Society*, *Canadian Math. Society*, and many conference proceedings, 2000 – present
- Education Assessment Committee (Eckerd College), 2006 – 2008
- Co-organizer of Putnam Mathematics Competition (Eckerd College), 2006
- Putnam Mathematics Competition Committee (UPENN), 2002 – 2003
- Graduate Admission Committee (UPENN), 2000 – 2002
- Preliminary Exam Committee (UPENN), 1999 – 2000

Selected Invited Talks

- *Multi-Zeta and -Polylogs and Their Special Values*, Number Theory Seminar, National Center for Theoretical Sciences, Hsinchu, Taiwan, May 2012
- *Multiple Zeta Functions*, Number Theory Seminar, Taida Institute for mathematical sciences at National Taiwan University, May 2012
- *q-analog of Wolstenholme's Type Congruences*, Western Coast Number Theory Conference, December 2011
- *Drinfeld associator and generalizations*, Algebra Seminar, Department of Math., Iowa State University, October 2011

- *Non-standard relations of multiple polylog values at roots of unity*, Colloquium, Department of Math., Iowa State University, October 2011
- *Arithmetic and geometry of multiple polylogarithm values at roots of unity*, Plenary talk, International Conference of Number Theory and Its Related Fields, Univ. Sci. & Tech. China, Hefei, China, June 2011
- *Multiple harmonic sums*, 2010 Florida Suncoast Conference, University of Tampa, December 2010
- *Witten volume formulas*, Mathematical Colloquium, University of Tampa, October 2010
- *Special values of Witten multiple zeta functions*, Western Coast Number Theory Conference 2010, Monterey, California, December 2009
- *Special values of Witten multiple zeta functions associated with Lie algebras, I & II*, University of South Florida, Tampa, Florida, November 2009
- *Special values of Witten multiple zeta functions*, Integers Conference 2009, University of West Georgia, October 2009
- *Motivic fundamental group of $G_m \setminus \mu_N$ and special values of multi-polylogs*, ETH, Zurich, Switzerland, May 2009
- *Special values of Witten multiple zeta functions*, Max Planck Institute for Math., Bonn, Germany, April 2009
- *Higher cyclotomy theory*, International Conference on Partitions, q -series, and Modular Forms, University of Florida, Gainesville, Florida, March 2008
- *A family of Euler sum identities*, Suncoast Region Meeting of the Florida Section of the MAA, Eckerd College, December 2007
- *Special values of multiple polylogarithms*, AMS eastern sectional meeting, Rutgers University, Brunswick, New Jersey, October 2007
- *Special values of multiple polylogarithms*, Morningside Center, Academia Sinica, Beijing, China, July 2007
- *Multiple zeta values*, Zhejiang University, Hangzhou, China, June 2007
- *Renormalization of multiple q -zeta values*, MAA sectional meeting, Hillsborough Community College, Florida, December 2006
- *Applications of abstract algebra: multiple harmonic sums*, Annual MAA meeting, Knoxville, Texas, August 2006
- *Walks on infinite planes paved by binary tiles*, MAA sectional meeting, University of Central Florida, November 2005
- *On q -analogs of multiple zeta functions and multiple polylogarithms*, Algebra and Number Theory Seminar, Pennsylvania State University, October, 2003.

- *Analytic continuation of q -multiple zeta functions*, Analysis Seminar, University of South Florida at Tampa, March 2004.
- *Partial sums of multiple zeta value series*, AMS Spring 2003 Central Section Meeting, Louisiana State University, March 2003
- *Motivic nature of multiple zeta values*, Galois Seminar, University of Pennsylvania, April, 2002
- *Goncharov's relations in Bloch's higher Chow group $CH^3(F, 5)$* , AMS Fall 2001 Central Section Meeting, Ohio State University, September, 2001
- *Arithmetic and geometry of multiple polylogarithms*, Geometry/Topology Seminar, Duke University, April, 2001
- *Root numbers connected with special values of L -functions over $\mathbb{F}_q(T)$* , Conference on Arithmetic of Function Fields, Brown University, April 1996

Publications

- [1] Finiteness of p -divisible sets of multiple harmonic sums. In press: *Ann. Sci. Math. Québec*. Published online on December 2, 2011.
- [2] Joint with X. Zhou: Reducibility of signed cyclic sums of Mordell-Tornheim zeta and L -values. *J. Ramanujan Math. Soc.* **26** (2011), 383–414. MPIM2009-8, 2009.
- [3] Joint with X. Zhou, Witten multiple zeta values attached to $\mathfrak{sl}(4)$. *Tokyo J. Math.* **34** (2011), 135–152. MPIM2009-41, 2009.
- [4] Mod p structure of alternating and non-alternating multiple harmonic sums. *J. Théor. Nombres Bordeaux* **23** (1)(2011), 259–268.
- [5] Alternating Euler sums and special values of Witten multiple zeta function attached to $\mathfrak{so}(5)$. *J. Aust. Math. Soc.* **89** (3)(2011), 419–430.
- [6] Witten volume formulas for semi-simple Lie algebras. *Integers* **11A** (2011) #A22.
- [7] Joint with R. Tauraso, Congruences of alternating multiple harmonic sums. *J. Comb. Number Theory* **2** (2)(2010), 129–159. MPIM2009-67, 2009.
- [8] A note on colored Tornheim's double series. *Integers*, **10** (2010) #A59, 879-882.
- [9] Multi-polylogs at twelfth roots of unity and special values of Witten multiple zeta function attached to the exceptional Lie algebra \mathfrak{g}_2 , *J. Algebra Appl.*, **9** (2)(2010), 327–337. DOI: 10.1142/S021949881000394X
- [10] Standard relations of multiple polylogarithm values at roots of unity, *Doc. Math.*, **15** (2010), 1–34.

- [11] On a conjecture of Borwein, Bradley and Broadhurst, *J. Reine Angew. Math.*, **639** (2010), 223–233.
